Heritage Lead Roofing

Sydney's trusted lead roof experts

www.heritageleadroofing.com

About us...

Our highly experienced lead roofing team at Heritage lead roofing are rapidly becoming Sydney's trusted lead roof experts. The dedicated lead roofers are all traditionally trained in the dying art of lead roofing.

Generations have passed down the knowledge of this classic roofing technique. The team have a combined roofing experience of over 30 years passed down from generation to generation of family members. We're so confident in our lead work it comes with a written 30-year warranty.

PROJECT PROPOSAL 01-01-2020

Feature Project

*Sts Peter's & Paul Old Cathedral, Goulburn
Welsh Slate, Lead & Copper (Ongoing)*

Why choose Lead?

- Lead is more cost effective over a long period than any other man-made material.
- Lead has proven to last over 100 years. No man-made product comes close to this life-span.
- Environmentally friendly. Independent studies have shown that lead causes less damage to the environment than its modern day man-made alternatives.
- It's aesthetically-pleasing and surprisingly beautiful without being too bold, making it an under rated, yet graceful choice for any property.
- It's Recyclability. In an age where sustainability is of extreme importance, the recyclable nature of lead is a significant asset.
- It's perfect for flat roofs and flashing.
- Everything can be made in house by our specialist lead team.

Feature Project

*Bathurst Courthouse, NSW - Galvanised Steel & Lead
Installs*

“Kyle and his team performed an amazing transformation that attracts comments daily from passers by and visitors. Everything was achievable - he went above and beyond with incorporating detailed lead roofing, slate tiling and copper spines and gutters, all working together perfectly.”

- Malcolm Day, Balmain Project

“The end result is spectacular, a talking point in our neighbourhood and has made our family immensely proud. This has been a challenging feat in that utmost attention to detail and skill as been warranted to achieve a harmonious and elegant marriage of new and old.”

- Tania Grippi, Woolwich Project

We offer a cost effective, long lasting lead roofing solutions including:

- New lead roofs
- lead flashings
- lead box gutters
- lead roll top ridge and all other aspects at competitive rates.

Lead Ridges

The many lead features installed by our team perfectly compliment the beautifully warm natural colour of a cedar shingle roof. Two materials that now lay perfectly in harmony. How about the view to go with it!

Brilliant stuff.

Lead Flashings

In house custom lead detail flashing made for this newly restored turret at the Presbyterian Ladies College (PLC) in Croydon. A beautiful restoration job that is now depicted as the focal point of the school.

Feature Project

The Sussex Hotel, Sydney CBD - Lead & Copper Installs

Lead Turrets

A special job for Newcastle East Primary School. A combination of Welsh slate & various lead components restoring this beautiful heritage building back to it's former glory.

An aerial photograph of Newcastle East Public School, featuring a prominent building with a dark blue, gabled roof and a brick facade with Gothic-style windows. The school is surrounded by lush green trees and other residential buildings. In the background, a city skyline is visible under a hazy sky, with a vibrant rainbow arching over the buildings. The overall scene is bathed in the warm, golden light of late afternoon or early morning.

Feature Project

Newcastle East Public School - Welsh Slate, Lead & Copper

Bull Nose

The dedicated lead roofers are all traditionally trained in the dying art of lead roofing. Generations have passed down the knowledge of this classic roofing technique.

The team have a combined roofing experience of over 20 years passed from generation to generation of family members.

Here's a lead bull nose to help add & restore to the original metal roof on this traditional standing home in Woolwich.

PROJECT PROPOSAL 01-01-2020

Feature Project

The Womens Hospital on Crown - Lead & Copper Installs

Lead Concave

Lead roofs and flashing have added prestige to buildings for centuries and still add a touch of first class roofing that no modern material can. Here's a great example of the beautiful contrast between lead, slate & Copper in Balmain.

Feature Project

NAVY Base, Sydney NSW - Welsh Slate, Lead & Copper installs.
